

HK Travel and Visitor Guidelines

When the pandemic began, we realized that the focus of Hutch Kids must be the health and safety of children, families, and the staff. As the nature of the pandemic changes, we are adjusting our practices to be in line with those recommended by the WA Department of Health and the CDC. At this time, we are asking families and staff to abide by these guidelines on their own accord. If the guidelines and or policies change with our partners or if we have outbreaks at Hutch Kids, we will revisit.

According to the CDD, "People who are not fully vaccinated and children under 5 years old who are not able to get a COVID-19 vaccine should continue taking steps to prevent getting sick."

Please refer to the [CDC guidelines](#).
